Project Demo Planning

Date	15 March 2026
Team ID	Rahul-DS633
Project Name	CrimeVision AI - Intelligent Multimodal Forensic Analysis Platform
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	**Introduction & Problem Statement**	Overview of forensic investigation bottlenecks, manual CCTV review limitations, and CrimeVision AI automated value proposition.	2.0 mins	Rahul Rajak
2	**Solution Architecture Overview**	Walkthrough of multimodal pipeline architecture (Vision, Whisper, OpenCV, LLM Fusion, Three.js 3D space).	1.5 mins	DevOps / Full-Stack Engineer
3	**Video Surveillance & 3D Reconstruction**	Live demonstration of real CCTV footage processing, 2D bounding boxes, 3D suspect trajectory tracking, and multi-camera angles.	3.0 mins	Rahul Rajak & CV Specialist
4	**Forensic Audio & Multilingual ASR**	Live processing of 911 distress call, Whisper speech transcription, and 4-language localization (EN, HI, TE, FR).	1.5 mins	Audio & NLP Engineer
5	**Image Analysis, Chatbot & PDF Report**	Single crime scene image 3D projection, conversational forensic Q&A chatbot, and dynamic court-admissible PDF generation.	1.5 mins	Rahul Rajak
6	**Conclusion & Technical Q&A**	System evaluation metrics review, cloud scalability roadmap, and addressing evaluator queries.	0.5 mins	Entire Team

Demo Flow Summary:

Step	Activity	Notes
1	**Introduction & Problem Statement**	Highlight time-critical challenges in law enforcement surveillance triage and how AI reduces evidence processing time from hours to seconds.
2	**Solution Overview**	Showcase system architecture, hybrid AI stack (RT-DETR + Whisper + OpenCV + Groq), and live cloud deployment topology.
3	**Live Feature Demonstration**	Demonstrate live platform at https://crime-vision-ai-frontend.vercel.app/ across video, audio, and image modes using the 14-case dataset library.
4	**Q&A Session**	Answer evaluator questions regarding model accuracy, real-time latency, memory optimization (<512MB RAM), and legal compliance.
