Team Involvement in Demonstration

Date	15 March 2026
Team ID	Rahul-DS633
Project Name	CrimeVision AI - Intelligent Multimodal Forensic Analysis Platform
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	**Rahul Rajak**	Project Lead & Lead AI Engineer	Introduction, 3D Video Surveillance & Live Demo	Architected end-to-end multimodal pipeline, Three.js 3D spatial reconstruction, live UI demonstration, and full-stack integration.	Active
2	**Team Member 2**	Computer Vision Specialist	Image Analysis & Object Detection	Implemented RT-DETR object detection, bounding box overlay rendering, and scene classification modules.	Active
3	**Team Member 3**	Audio & NLP Engineer	Audio Forensics & Multilingual ASR	Integrated OpenAI Whisper speech-to-text, acoustic event detection, and 4-language translation pipeline.	Active
4	**Team Member 4**	DevOps & Full-Stack Engineer	Cloud Architecture & System Deployment	Managed Vercel frontend CI/CD, Render backend microservice deployment, CORS security, and test automation.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Rahul Rajak
Overall Team Coordination Rating (1-5)	5 / 5 (Exceptional cross-functional execution and milestone delivery)
Any issues during demo	Render cloud free-tier service cold-start latency (~30-40 seconds initial container spin-up).
How issues were resolved	Pre-warmed the cloud backend container gateway prior to live evaluation and integrated client-side static media fallbacks for uninterrupted demonstration continuity.
